End Application:

F/a-22 ground support equipment

Accessory Components And Quantity:

Dewpoint meter xr71110, transportation case xr10024, 1/4 swagelok adapters2 xr7110, pigtail xr10022, operation manual xr10020

Pressure Rating:

15.0 pounds per square inch and 85.0 pounds per square inch

Product Name:

Meter, dewpoint

Special Features:

6field calibration, 12 inch ss outlet air path to ambient, interfaces with dew point meter/oxygen analyzer adapter via 1/4 inch tube fitting, battery powered, portable, corrosive resistant material, measures dew point -148f to 68f, accuracy p/m 5.0 degrees f

Functional Description:

Verify on board dew point measurement and monitoring system functioning properly field calibration

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
