Product Name:

Direct reading differential pressure gauge

Special Features:

Read differential pressure at top of piston; accurate within 1/2 psi at system pressures to 300 psi; no subtraction calculation required; multiple calibrations-front face, psi and kpa - back face, bar and kg/cm2; rugged construction, suitable for vehicle or stationary use; operating pressure is 300 psi; ultra violet light protection

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-a
