Scale Marking And Surface Finish:

Numerals luminous

Current Type:

Ac

Ac Voltage Rating:

115.0 volts

Frequency Rating:

Between 50.0 hertz and 60.0 hertz

End Application:

High performance strain gage meter

Presentation Type:

Digital display

Electrical Connection Quantity:

3

Illumination Color Generation Method:

Red source

Display Digit Quantity:

6

Product Name:

Inavy)readout

Special Features:

Nema-4 front panel; dual relay output; remote tare, min, max, reset, and hold features; five front panel keypads; adjustable filtering up to 13hz

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A533y0
