End Application:

Pmel

Accessory Components And Quantity:

Self-purging liquid trap, rpm4, case, rack mount kit, dual vol unit, remote foot switch, vacuum pump package, cable, motorola 68302, 16mhz, range 0-300 psi

Usage Design:

Supply & monitor a calibrated non-corrosive gas supply to verify instrument operations

Scale Calibration Method:

Master gage comparison

Criticality Code Justification:

Alcd

Product Name:

Secondary standard

Special Features:

Pressure controller/calibration, infinite ranging allow testing variety absolute, gauge, compound gauge, control/mechanical measure, add accuracy reference pressure transducers q-rpt, power 85/264vac, 50/60hz, 30va max, operating emp 15/35 degrees c, cart or rack mounted, delivered pressure uncertainty p/m0.009%

Relationship To Similar Equipment:

UPGR-AD-EOF-PPC2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-x
