End Application:

Misc parts auxiliary systems inls

Stem Length:

2.500 inches

Design Type:

and

Dial Diameter:

3.000 inches

Scale Type:

Dial

Mounting Facility Type And Quantity:

1 external pipe connection

Special Features:

Stem diameter in 1/4 in accuracy is 1% of full scale, connection is 1/2in npt male, has a external calibration adjustment

Material:

Steel comp 304

Style Designator:

Straight form, horizontal dial

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27600
