Product Name:

Monitor thermal environment questemp 36

Special Features:

7further simplifies heat stress management efforts by providing users with realtime guidance on stay times and work/rest regiments; guidance is based on screening criteria for heat stress as defined in the acgih tlv handbook, us navy phel charts and epri action limits; can be used as an indoor thermal comfort monitor using the air velocity probe, temperature and rh sensor readings simultaneously; measurement ranges: temperature -5 to 100 degree c, relative humidity 0 to 100%, air velocity 0 to 20 m/s

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
