Storage Temperature Range:

-40.0/+50.0 degrees celsius

Maximum Voltage Rating In Volts:

115.0 ac or 56.0 dc

Current Rating In Amps:

6.0

Operating Range:

M210.0/p400.0

Power Source:

External

Mounting Method:

Panel

Maximumlength:

152.0 millimeters

Maximumwidth:

96.0 millimeters

Maximumheight:

48.0 millimeters

Intelligence Data Handling Capability:

Temperature receiving automatic

Indication Method:

Receiving counter

Product Name:

Temperature and process meter

Special Features:

Accept 100 omes pt, programable 0-9999, accuray +/- .50 degrees c, 2 sec step response, panel cutout 45x92 mm (1.772x3.622)

Functional Description:

Panel meter, controller and rtd input

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A31700
