**Storage Temperature Range:**

-40.0/+50.0 degrees celsius

**Maximum Voltage Rating In Volts:**

115.0 ac or 56.0 dc

**Current Rating In Amps:**

6.0

**Operating Range:**

M210.0/p400.0

**Power Source:**

External

**Mounting Method:**

Panel

**Maximumlength:**

152.0 millimeters

**Maximumwidth:**

96.0 millimeters

**Maximumheight:**

48.0 millimeters

**Intelligence Data Handling Capability:**

Temperature receiving automatic

**Indication Method:**

Receiving counter

**Product Name:**

Temperature and process meter

**Special Features:**

Accept 100 omes pt, programable 0-9999, accuray +/- .50 degrees c, 2 sec step response, panel cutout 45x92 mm (1.772x3.622)

**Functional Description:**

Panel meter, controller and rtd input

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A31700
