Overall Length:

3.040 inches

Overall Diameter:

2.490 inches

Operating Temperature Range:

-65.0/+85.0 degrees celsius

Contact Quantity:

7

End Application:

Transport aircraft, cn-235

Physical Form:

Rectangular

Operation Type:

Direct

Product Name:

Outside air temperature sensor

Special Features:

Flight operating ranges - altitude minus 1000.0 to 60000.0 feet; speed mach 0.0 to 0.6; temperature exposure minus 70.0 to plus 250.0 degrees c; mounting flange - 6 through holes 0.170 inch diameter on 2.000 inch diameter bolt circle; single 500.0 ohm element; mating bayonet connector nsn 5935007798607 or equivalent

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A514m0
