Electrical Resistance Temperature Transmitter - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6685-01-539-7247

Body Length:
4.000 inches
End Application:
Icas system, cvn-72
Unit Type:
Protective tube
Special Features:
Max temp: 200 degrees celsius; cast iron head w/ screw cover terminal; 3 wire configuration; tube outside diameter: 1/4 inch
Material:
Steel comp 316 protective tube
Style Designator:
Integrally-mounted element
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
