Overall Length:

3.500 inches

Overall Width:

2.125 inches

Operating Temperature Range:

-40.0/+140.0 degrees fahrenheit

End Application:

Oe-170 (v) 1-4/fsc, antenna

Physical Form:

Rectangular

Contact Type:

Screw

Actuation Type:

Thermal

Mechanical Connection Quantity:

3

Mechanical Connection Size:

6-32

Operation Type:

Direct

Product Name:

Dwg: sensor, temperature; cage: it temperature monitor

Special Features:

This is a n rs-232 device that provides temperature sensor information to network management software for environmental monitoring; accuracy: +/- 1.5 degrees f; interface connections: serial port: db-25 female; temperature probe: terminal; accomodates 2 probes (not included); supplied with 6 ft db25 male to db9 female rs-232 cable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A514m0
