End Application:

Light amphibious resupply craft (larc) slep

Display Type:

Light emitting diode

Product Name:

Inavy-sensor, moisture

Environmental Attribute Code:

Barometers & hygrometers - consumer products - non-mercury alternative

Special Features:

operating pressure 420 bar (6000 psi); flow through sensor cell installed in active flowstream; unlimited viscosity range; analogue output
+0.85 to 4.05 vdc

Material:

Steel comp 303 protective tube

Style Designator:

Panel mounted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27600
