Measurement Type:

Sensitized actuating element

Scale Measurement Range:

+0.000/+2500.000 degrees fahrenheit

Product Name:

Portable pyrometer

Special Features:

Min af requirements protective handle, temperature indicator, extension rod, thermocouple attachment, thermocouple, case, hard copy operational and maintenance manual, 3 year warranty date of purchase

Functional Description:

Measure temperatures up to 2500 degrees f in af pme1

Purchase Description Identification:

Pp06wrgbzpen131

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27600
