Operating Temperature Range:

-40.0/+400.0 degrees fahrenheit

End Application:

Misc elec parts for lhd 0008

Unit Type:

Bayonet

Product Name:

Inavy-transmitter, temperature

Special Features:

Resistance thermometer is nickel

Material:

Nickel bulb

Style Designator:

Integrally-mounted element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27600
