**Operating Temperature Range:**

-25.0/+999.0 degrees fahrenheit

**Display Type:**

Liquid crystal

**Measurement Range:**

-25.0/+999.0 degrees fahrenheit

**Scale Accuracy Rating:**

1% accuracy f/c switchable

**Product Name:**

Handheld infrared thermometer

**Environmental Attribute Code:**

Non-mercury alternative - medical products - thermometers

**Special Features:**

12: 1 d: s; single point class 2 laser sighting; backlit lcd display; max, scan and hold functions

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A27600
