Overall Length:

12.042 inches

Overall Width:

14.002 inches

Voltage Rating:

100.0 volts input and 240.0 volts input

Mounting Method:

Bracket and case

Product Name:

Original name submitted was calibrator, pressure

Special Features:

Designed to test and calibrate a variety of pressure devices in either absolute or gauge pressure models

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T179-e
