Mounting Type:

Any acceptable

Carrying Case:

Provided

End Application:

Support equipment

Accessory Components And Quantity:

3 wire interconnect cable for mating tester to gages or transmitters

Portability:

Portable

Product Name:

Pressure indicating system, field test set

Special Features:

Designed per mil-t-27233 / ttu-26/e; suitcase tester with frequency meter; master indicator which reads in percent of deflection; ac voltmeter; voltage adjust; percent of deflection selector switch; 26vac 400hz input; housed in an aluminum case 6 inch by eighteen inch by eleven inch with hinged top

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-x
