Overall Length:

24.250 inches

End Application:

Remote control panel for duct heater: p/n tfz 36m-4s

Physical Form:

Rod

Product Name:

(inavy) unistat plenum sensor

Special Features:

Thermistor type 47 kohm ntc; sensing bulb type is dipped copper bulb; wire length is 18 inches / 22 ga.; probe length is 6 1/4 inches; probe diameter is 3/8 inches; typical mounting is through hole in duct, with eyelet; used with unistat and microstat; temperature range from -5 to +180 degrees f, -18 to +82 degrees c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A514m0
