Width:

8.000 inches

Depth:

2.000 inches

Presentation Type:

Digital display

Light Location:

Back

Mounting Facility Type And Quantity:

1 stand and 1 stud

Display Type:

Liquid crystal

Product Name:

Thermometer indicator

Special Features:

Shall display degrees celcius or farenheit, shall accept type j; k; t; r; s and e thermocouples, shall have dual inputs with wide measurement ranges, shall diplay temp 1; temp 2 and temp 1 and 2 simultaneously with backlight and shall include hold; min/max; relative and timer/date stamp functions, shall output realtime measurement data with time stamp via rs232 interface, shall include hard carrying case; two ea type k thermocouple probes, shall weigh 20 ounces or less, shall operate in 0 to 50 degree celcius at 85 percent relative humidity, range shall be -200 degrees celcius to 1760 degrees celcius using allowable type thermocouple with resolution of 0.1 degrees celcius for low part of range and 1.0 degrees celcius for high part of range, accuracy shall be 0.1 percent of reading +0.7 degrees celcius low partof range and +1.4 degrees high part

Height:

4.000 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
