Ac Voltage Rating:

115.0 volts

Frequency Rating:

380.0 hertz and 420.0 hertz

End Application:

C212 transport aircraft

Pointer Type:

Clock-hand single pointer

Product Name:

Autotemp indicator

Special Features:

Both analog pointers and digital displays for redundancy. 115vac plus or minus 10 percent, 380 to 420hz, unit requires 10 watts . Signal input; ansi type k thermocouple. Range 0 to 1200 degree c. Case 2 inch diameter, 6.5 inches long hermetically sealed. 1.5 lbs . Range marking green arc 400 to 885 degree c. Yellow arc 885 to 923 degree c. Red bar at 923 degree c. Red dot at 1149 degree c. Digital lightning led 7 segment green displays. Case color black. Warning lamp; amber led illuminates at 929 degree c tso; c43c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
