Case Material:

Plastic, acrylonitrile-butadiene-styrene

End Application:

3655-01-556-1083, nitrogen generator

Actuation Type:

Bourdon tube

Scale Range:

+0.0/+100.0 pounds per square inch

Dial Size:

1.5 inches

Connection Quantity:

1

Pointer Color:

Black

Mounting Method:

Clamp

Actuating Element Material:

Copper alloy

Connection Location:

Back, center

Connection Size:

0.125 in npt

Product Name:

Press gauge, panel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-b
