Operating Temperature Range:

+0.0/+50.0 degrees celsius

Measurement Type:

Digital

Display Type:

Liquid crystal

Measurement Range:

-40.0/+550.0 degrees celsius

Product Name:

Infrared and contact thermometer

Environmental Attribute Code:

Non-mercury alternative - medical products - thermometers

Special Features:

Measures ir and contact temperature; single point laser sighting; display resolution 0.1 deg.C.; distance to spot size 12: 1; adjustable with 3 settings, low (0.3), medium (0.7), high (0.95); 500 msec response time; laser turns off above ambient temperature of 40 deg. C.; requires 2 aa batteries

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27600
