Operating Tempurature Range:

-55.0/+125.0 degrees celsius

Voltage Rating In Volts:

Between 3.0 ac and 5.5 ac

Measurement Type:

Digital

Measurement Range:

-55.0/+25.0 degrees celsius

Environmental Attribute Code:

Non-mercury alternative - medical products - thermometers

Special Features:

1-wire interface required one port pin for communicationp; applicationsinclude thermostatic controls, industrial systems, consumer

products, thermometors, or any thermally sensitive system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27600
