End Application:

828 digital control; p/n 9907-247

Special Features:

Configurable for control and monitoring in engine, plant process, and marine applications; 32 bit microprocessor; 3 user-configurable communication ports; modbus protocol; 2 local operating network (Lon tm**) channels; digital reference and ramps for speed, temperature pressure, etc; configurable update time groups - 10-80 milliseconds; ul and cul listed; ce compliant

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
