Overall Length:
10.000 inches
Overall Height:
17.000 inches
Overall Width:
7.000 inches
End Application:
Oil test
Accessory Components And Quantity:
Heater insulator 1; bottom panel 1; front panel 1; heater disk 1; pyrex cup 1; test burner 1; burner bracket 1; thermometer assembly 1;
adaptor ring 1; water bath assembly 1; base 1; wattstat 1; red pilot light 1; on-off plate 1; switch 1; heyco strain relief 1; heater ring 1;
knob 1; line cord 1; screw 20; nut 1; lock washer 5
Voltage In Volts And Current Type:
115.0 dc
Product Name:
(inavy)tester, flash point
Special Features:
Determines flash point of liquid products and cutback asphalts
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
Yes - demil/mli
