End Application:

Lgm30 minuteman

Special Features:

Consists of process manometer 627b12tbc1b, relay manometer 750b13tcd2gg, process connection nw kf-16, relay trip point a energizes set point at 5 vdc (500 torr); trip point b energizes set point at 9.5 vdc (950 torr), part number is specific to the application

Functional Description:

Maintains vacuum integrity

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
