Maximum Operating Pressure:

5.0 pounds per square inch

Mounting Type:

Carrying case

Scale Range:

+0.0/+4000.0 inches of water

Tubing Outside Diameter:

0.250 inches

Connection Facility Type:

External

Connection Location:

Top side

Mounting Provision For Which Designed:

Hand held

Product Name:

Handheld digital manometer

Special Features:

Service air and compatible gases; accuracy +/- 0.5% f.S. 60 to 78 degrees f, +/- 1.5% f.S. 32 to 60 degrees f and 78 to 104 degrees f; pressure hysteresis +/- .1% of full scale; temperature limits 0 to 140 degrees f; compensated temp limits 32 to 104 degrees f; display 0.42 in 4 digit lcd; response time 1 second; weight 10.2 oz; connections 2 barbed connections for use iwht 1/8 in or 3/16 in id tubing. 2 compression fittings for use with 1/8 in id x 1/4 in od tubing; stores 40 readings in memory; measures positive, negative, or differential pressure

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T179-d
