**Case Material:**

Steel, aisi 316

**End Application:**

Misc parts sea water system lcs 0001

**Actuation Type:**

Diaphragm

**Scale Range:**

Optional range

**Scale Name:**

Pounds pressure

**Dial Size:**

4 1/2in rd

**Connection Quantity:**

1

**Pointer Color:**

Red

**Scale Type:**

Dial

**Mounting Method:**

Clamp

**Actuating Element Material:**

Rubber, synthetic and nickel copper alloy

**Scale Name For Which Pointer Is Designed:**

Pounds pressure

**Connection Location:**

Back

**Connection Size:**

0.250 npt female to 9/16-18unf-3a male

**Product Name:**

Gauge, pressure, dial

**Extra Long Reference Number:**

Lfp-412-mmc-iv-m-s13-0-300psi-wob

**Special Features:**

Liquid filled operating temp -40 to 140 degrees f, fully filled w/temperature compensator

**Reference Number Differentiating Characteristics:**

As differentiated by extra long reference number

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T179-b
