Case Material:

Steel, aisi 316

End Application:

Misc parts sea water system lcs 0001

Actuation Type:

Diaphragm

Scale Range:

Optional range

Scale Name:

Pounds pressure

Dial Size:

4 1/2in rd

Connection Quantity:

1

Pointer Color:

Red

Scale Type:

Dial

Mounting Method:

Clamp

Actuating Element Material:

Rubber, synthetic and nickel copper alloy

Scale Name For Which Pointer Is Designed:

Pounds pressure

Connection Location:

Back

Connection Size:

0.250 npt female to 9/16-18unf-3a male

Product Name:

Gauge, pressure, dial

Extra Long Reference Number:

Lfp-412-mmc-iv-m-s13-0-300psi-wob

Special Features:

Liquid filled operating temp -40 to 140 degrees f, fully filled w/temperature compensator

Reference Number Differentiating Characteristics:

As differentiated by extra long reference number

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-b
