Operating Temperature Range:

-20.0/+60.0 degrees celsius

End Application:

Space radar

Unit Type:

Protective tube

Accommodated Contact Type And Quantity:

4 pin

Product Name:

Temperature monitor

Special Features:

Output pnp no/nc and 4-20milliamp; pressure rating 1450psi; temperature measurement range -40 to 120deg c; 1/2 npt connection

Material:

Steel comp 316 thermocouple well

Terminal Type And Quantity:

1 connector

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A27600
