Overall Length:

37.000 inches

Overall Height:

0.620 inches

Overall Width:

0.620 inches

Operating Temperature Range:

-200.0/+232.0 degrees celsius

Contact Quantity:

3

End Application:

28 volt dc rectifier encl 314-8328966

Physical Form:

Rectangular

Contact Type:

Wire lead

Actuation Type:

Thermal

Operation Type:

Direct

Product Name:

Inavy: sensor, rtd, stick on; cage: polyimide insulated flexible rtd stikon surface sensor

Special Features:

Flexible: element is platinum; insulation is polyimide; 26 awg wire lead is 36 in. Long ribbon cable with last 1.25 in. Separate wires; 3 conductors; 100.00 ohms p/m 0.500 ohm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A514m0
