Overall Diameter:

6.000 inches

Case Material:

Aluminum

Case Surface Treatment:

Gray epoxy resin paint

End Application:

Misc parts sea water system lpd

Actuation Type:

Bellows

Adjustability:

Adjustable

Scale Range:

+0.0/+415.0 inches of water

Scale Name:

Differential pressure

Dial Size:

4-1/2 in. Diam

Connection Quantity:

4

Pointer Color:

Black

Pointer Type:

Indicating

Scale Type:

Single

Connection Type:

Internal

Actuating Element Material:

Beryllium copper

Scale Inscription/background Color:

Black marking, white background

Connection Location:

Top and bottom

Bezel Type:

Slips-on

Connection Size:

7/16-20 unf-2b

Product Name:

(navy)indicator, differential pressure dial size 4-1/2 inches

Special Features:

Red set pointer

Material:

Aluminum

Material:

Aluminum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-b
