End Application:

Miscellaneous parts machinery cvn 0077

Dial Diameter:

4.500 inches

Scale Type:

Dial

Mounting Facility Type And Quantity:

1 flush

Actuating Medium:

Gas

Bulb Quantity:

1

Bulb Type:

Remote air sensing probe

Flexible Tube Length:

660.000 inches

Bulb Style:

Bendable capillary

Scale Measurement Range:

+20.000/+240.000 degrees fahrenheit

Pointer/pen Type And Quantity:

1 indicating single

Product Name:

Thermometer remote

Special Features:

Shock resistant to mil-s-901c, gray enameled aluminum case with plastic window, yellow dial with black numerals and graduations, black adjustable pointer and movable red ref hand, stainless steel spiral armored capillary tubing, stainless steel bulb assembly, vibration resistant to military std-167d

Material:

Stainless steel bulb

Style Designator:

Plain rigid

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27600
