Inclosure Type:

Encased

Power Source:

Self-contained

Mounting Method:

Bracket

Sensing Element Type And Location:

Bimetallic temp internal

Product Name:

Airpax series 6700 thermostate

Special Features:

Weight: 0.5 grams; high temperature epoxy sealed; nickel-plated copper bracket; single pole/single throw switchoperating temperature 090

Functional Description:

Miniature bimetallic snap acting thermostat which provides accurate and reliable sensing and switching in a single device. Primarily for thermal management applications on power supplies

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A31700
