**Overall Length:**

8.790 inches

**Overall Height:**

2.255 inches

**Overall Width:**

4.620 inches

**Voltage In Volts And Current Type:**

120.0 ac

**Product Name:**

Monitor temperature and power guard

**Special Features:**

Capable of monitoring temperatures of up to four locations and power of up to five sources; programmable time delay for each sensor; programmable high and low temperature limits; internal alarm buzzer; alarm relay output; calls up to four phone numbers to provide notification of a problem; may be called at any time to check the status of any input; rechargeable 4 hour battery backup; temperature sensor range: -40 to +212 degrees f; requires temperature sensor type 1000 ohm platinum (0.00385 tcr)

**Functional Description:**

Continuously monitors the temperature of up to four areas, up to five power lines, and one dry contact output, providing an alert if a temperature or power input deviates from established parameters

**Material:**

Plastic

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
