Overall Width:

2.000 inches

Overall Length:

3.600 inches

Voltage Rating In Volts:

3.0 dc

Features Provided:

Portable

Scale Measurement Range:

-30.000/+70.000 degrees celsius

Overall Height:

0.670 inches

Special Features:

Temptale 4 bio, multi-use; ambient electronic temperature monitor; designed to meet critical pharmaceutical applications for monitoring temperature sensitive products during storage and transportation; accurately monitors and records environmental conditions experienced by pharmaceuticals and biologics throughout the entire cold chain; data storage capacity: 1920 or 16000 data points; software/computer interface: temptale manager desktop software; software provides custom graphing and data analysis capabilities

Shape:

Rectangular w/rounded corners

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A507n0
