End Application:

Nuclear reactor boundary area

Mounting Facility Type And Quantity:

1 connection

Product Name:

Spring loaded resistance temperature detector

Special Features:

Element: platinum; resistance: 100.0 ohms nom at 32 degrees f; operating temp: m40.0/p200.0 f; 3/4 npt conduit connection; insertion length: 2.690 in.

Style Designator:

Direct mounted type, back adjustable angle connected

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A27600
