Product Name:

Pt100 temperature probe

Special Features:

-25 to +150 degrees c range; +/-0.2 degrees c accuracy; 6mm diameter probe tip 300mm long; handle with 0.3 to 1.5 meter coiled cable and connector

Functional Description:

Used with aircraft differential pressure kits clk-zeph-acdp and clk-zeph-acdp with zephyr ii instruments for temperature measuring

Precious Material:

Platinum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
