End Application:
5840-01-578-4122; radar set
Product Name:
Digital thermometer and thermostat
Special Features:
Measures temperatures from -55 to 125 degrees celcius; uses a bangap guage to measure temperature; uses simple 3-wire interface to
communicate to the ds1620
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
No
Fiig:
