Product Name:

Pressure transducer

Special Features:

Power supply requirements: 7-35 vdc for 4-20ma; voltage units: 1.5 vdc over maximum output "v" output; features proven cvd sensing technology, on asi (amplified units) and modular packaging to provide a sensor line/ easily accomodates specials while not sacrificing high performance

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-e
