Case Material:

Plastic

End Application:

1740-01-575-5662

Pointer Color:

White and black

Product Name:

Electrical instrument

Special Features:

Model number: 828Is; type: trans temp; range: 140-320 degrees f; lighting ole: 5/8; dc voltage: 12 and operating 10-16; bezel finish : sae black; standard calib: 07927-05; fully sealed w/antifog light kit installed; terminals: brass tin plated

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T179-b
