Overall Length:

144.000 inches

Mounting Bolt Circle Diameter:

4.0 millimeters

Operating Temperature Range:

+980.0/+1038.0 degrees celsius

End Application:

Radar bench asyd616206g01

Unit Type:

Shielded

Accommodated Wire Awg Size:

20

Product Name:

High temperature iconel overbraided silica fiber insulated thermocouple

Special Features:

Chromega-constantan thermocouple

Material:

Nickel alloy 600 outer jacket insulation/sheathing

Terminal Type And Quantity:

1 terminal lug and 2 connector, spade

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27600
