

View Online at <https://aerobasegroup.com/nsn/6685-01-596-3308>

Special Features:

Compact; dual laser; provides pulsed green light sources for particle image velocimetry (piv); suited for most liquid and many air-based piv experiments; 6.5mm beam diameter; 6-9 ns pulse width; form 2% rms energy stability; 200 mj energy @ 532nm; 0-15hz repetition rate; 1 x 650 w power supply; 2 pulsed nd: yag piv lasers mounted on a single baseplate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
