Overall Length:

9.400 inches

Overall Width:

5.500 inches

Measurement Type:

Digital

Environmental Attribute Code:

Barometers & hygrometers - consumer products - non-mercury alternative

Special Features:

Used for natural gas, chemical and petrochemical gases, non-aqueous liquid applications, air separation plants, and various other systems, features: hand-held, ip67 rated, large graphic display, internal data log, irda communication with pc, stores upto 60 log/site files, compatible with all ge moisture probes, rechargeable internal battery pm880, battery life: 15 to 24hrs, battery life reduced when operating below 0 degrees celsius, battery charger: switcgable input: 115v or 230vac at 50/60hz, key pad: 25-keys, display: 240x200 pixel, backlight lcd, accessories: printer and battery, flexible steel hose, tf moisture probe and cable, sample system, pc infraed adapter, pm880 battery and charger, soft carrying case, operating temperature range: -10 degrees to 50 degrees celsius, dimensions: 9.4x 5.5x1.5 inches

Style Designator:

Hand held

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27600
