Overall Length:
9.400 inches
Overall Width:
5.500 inches
Measurement Type:
Digital
Environmental Attribute Code:
Barometers & hygrometers - consumer products - non-mercury alternative
Special Features:
Used for natural gas, chemical and petrochemical gases, non-aqueous liquidapplications, air separation plants, and various other systems,
features: hand-held, ip67 rated, large graphic display, interal data log, irda communication with pc, stores upto 60 log/site files, compatible
with all ge moisture probes, rechargeable internal battery pm880, battery life: 15 to 24hrs, battery life reduced when operating below 0
degrees celsius, battery charger: switcgable input: 115v or 230vac at 50/60hz, key pad: 25-keys, display: 240x200 pixel, backlight lcd,
accessories: printer and battery, flexible steel hose, tf moisture probe and cable, sample system, pc infraed adapter, pm880 battery and
charger, soft carring case, operating temperature range: -10 degrees to 50 degrees celsius, dimensions: 9.4x 5.5x1.5 inches
Style Designator:
Hand held
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A27600
