Overall Diameter:

2.500 inches

Case Material:

Steel, corrosion resisting

Scale Type:

Dial

Mounting Method:

Panel

Connection Location:

Back, center

Special Features:

1/4 npt back center connection; brass internals; stainless steel front flange; 3, 2, 3 precision dual scale psi and bar; 0-6000 psi pressure range; includes a snubber; on a self-generating nitrogen servicing cart

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T179-b
