Actuation Method:

Diaphragm

Measurement Range:

-14.2 to 2000.0 inches of pressure

Product Name:

Rosemount 3051 coplanar pressure transmitter

Special Features:

4-20 ma with digital signal based on hart protocol transmitter output; flange material sst; flange type coplanar; drain/vent material sst; 316l sst diaphragm; silicone sensor fluid fill; aluminium housing material 1/2-14npt; traditional flange 316 sst drain/vent; b2 bracket with series 200 sst bolts; fm, csa and atex explosion proof, intrinsically safe

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-e
