Case Material:

Steel, corrosion resisting

End Application:

Compressor, ai

Actuation Type:

Any acceptable

Scale Name:

Temperature

Pointer Color:

Black

Scale Marking:

Twin-temp

Scale Type:

Dial

Power Source:

External

Actuating Element Material:

Steel

Scale Length:

0.250 inches

Bezel Type:

Any acceptable

Product Name:

Twin-temp thermometer, twin temp transmitting accessories and options models tt.32 and tt.52; (inavy) gage, temperature

Special Features:

Designed for applications requiring local readability using a mechanical measuring element while affording an additional means of electronic data acquisition from the same instrument

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-b
