Overall Height:

5.0 inches

Overall Width:

4.06 inches

Overall Diameter:

5.83 inches

Case Material:

Plastic, thermoplastic and fiberglass

End Application:

4910-01-563-8425

Adjustability:

Adjustable

Scale Range:

+0.0 to 10000.0 pounds per square inch

Scale Name:

Pounds pressure

Dial Size:

4.5 inches

Connection Quantity:

1

Pointer Color:

Black

Pointer Type:

Indicating

Scale Marking:

0-10000

Scale Type:

Dial

Connection Type:

External

Actuating Element Material:

Steel, corrosion resisting, aisi 316

Scale Inscription/background Color:

White

Scale Name For Which Pointer Is Designed:

Hydraulic pressure

Connection Location:

Lower

Connection Size:

0.5 inch npt

Product Name:

Gage, pressure

Functional Description:

Specifically designed for the chemical and petroleum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T179-b
