Mounting Location:

Inside meter case

Product Name:

Programmable thermocouple

Special Features:

Operating voltage: 6.5 to 36v, sensor burn out protection, min input signal: rtds: 10 degree c, operating temp: -40 - 85 degree c.

Material:

Plastic case, holder

Terminal Type And Quantity:

1 insulated wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27600
